

What real harm does leaving the existing rules limiting media consolidation and increasing private ownership do? As it exists now the laws allow many communication/media companies many ways to make money AND it has the public in mind. KEEP THE PUBLIC in mind here. We are a democracy and we need choice. And not just choice between 2 or 3 mega companies. This is so important!!! Please support the needs of the public over pressure for bigger more powerful business. Thanks You. Concerned, M. A. Hindle
